Grant Request \$ 1989.⁰⁰

Describe the reason for this grant request in the space below:

-Application continued on next page-

We currently have a indoor drop box outside of our building, sitting in the elements and is beginning to rust. It is neither weather proof nor insect proof and is beginning to show signs of deterioration. We are planning on purchasing a new drop box by January 1st 2013. We currently have some money left in our supply budget to cover the cost of the shipping and handling. If we were to postpone our request to a later date we would need to pull the drop box back inside the community building for the winter. This is not convenient for our patrons due to the fact that the building is locked during non working hours and they would have no way of returning their items to our library without waiting until we were open. This essentially effects all of our patrons. Some of the materials being returned are getting ruined by the rainwater that is leaking in to the box.
