

Dear Elmer G Biddick Foundation,

THANK you very much for your
generous contribution to the Belmont schools.
Your gift will enable the eighth
grade class to attend Trees
for Tomorrow.

THANK you once again.

Sincerely,

Jeff Case

Dear Biddick Foundation,

On behalf of the eighth grade class

I'd like to thank you for your generous donation that allowed us to go to trees for tomorrow. It was truly an education experience that I'll never forget.

A few of the many things we learned were tree identifying, what a planetarium is, and how to use a compass and GPS. Some of the key characteristics used to identify a tree are soft or hardwood, leaf shape and size, bark color, and the branching of the trees. At the Kovac Planetarium we learned how to never give up and to follow your dreams such as Frank did. It took him 12 years to complete this amazing task. As we sat in the planetarium we saw thousands of stars and constellations. We also experienced many national forests. In the forests we went on hike and learned many things. We really, truly enjoyed the amazing educational experience.

Thanks again,

Brianna Miesen and the
eighth grade class.
