Elmer G. Biddick Charitable Foundation Scholarship
Brad Biddick
11921 Rock Church Road
Livingston, WI 53554

Dear Brad:

I am very thankful to have received a scholarship from the Elmer G. Biddick Charitable Foundation. Thank you for your generous financial support.

Currently, I am a junior at Mineral Point High School and taking courses through Southwest Tech as part of the CollEdge Up program. I have appreciated being able to earn college credit while also earning high school credit. This will allow me to be more prepared to pursue my education after high school. I am grateful for the support of your foundation.

At Mineral Point High School, I am involved in football, FFA, Skills USA, and the class of 2020. After high school, I am interested in earning a certificate from Southwest Tech in either Welding, Dairy, or Ag Power and Mechanics. Thanks to dual enrollment, I plan to have all my math and English requirements completed for these programs before I graduate in May of 2020. Your scholarship has made a big impact financially in my ability to meet this goal.

Sincerely,

Andrew Heisner

Dear Brad,

I am extremely happy that I have had this opportunity to receive the Elmer G. Biddick Charitable Foundation Scholarship. Thank you for your generous financial support.

Currently, I am a senior from Mineral Point taking courses at Southwest Tech through the COLLEGE Up program. I have taken multiple credits through Southwest Tech like psychology and sociology. Also, I received my CNA license through Southwest Tech a few years ago. Balancing between my high school classes and these rigorous college classes was not easy, and I am grateful for your support.

As a student from Mineral Point, I am involved in many extracurricular activities and volunteer programs: FFA, Forensics, Mock Trial, Key Club, National Honor Society, basketball, volleyball, and student council. Through these clubs, I have collected and delivered food for my local food pantry, served food at my community dinners, organized hurricane relief efforts, and much more. The COLLEGE Up program through Southwest Tech has allowed me to earn college credits in high school while putting me ahead in college. After graduating this spring, I will be attending Edgewood College to pursue a major in diagnostic medical sonography and a minor in psychology. In addition, I have accepted an offer to play basketball at Edgewood.

Again, thank you for recognizing me for this scholarship. It is greatly appreciated.

Sincerely,

Dear Brad:

I was very happy to learn that I am the recipient of the Elmer G. Biddick Foundation Scholarship. Thank you for your generous financial support!

I am currently a high school student at Boscobel High School taking courses at Southwest Tech for the COLLEGE program. Additionally, I am very thankful for your support because balancing high school and college classes is not easy.

At Boscobel High School I am involved in the following extracurricular activities: choir, forensics, Spanish Club, Leos Club, and student council. In addition, I am also a CNA. The opportunity to earn college credits in high school will help put me ahead after I graduate high school this May. After high school I plan on getting my associate's degree in human resources and then moving on to get my bachelor's degree in social work.

Sincerely,

Dear Brad,

When I received a letter from Southwest Tech, I was confused, at first, until I saw what was inside of the letter. I was very happy to learn I am the recipient of the Elmer G. Biddick Charitable Foundation Scholarship. Thank you for your incredibly generous financial support!

Currently, I am a Sophomore in high school at Potosi High school taking courses through the COLLEDGE Up program. Balancing college classes, my normal high school classes, and my extracurriculars has not been a walk in the park, but I deeply appreciate your financial support.

At Potosi, I am in the high school play and musical, Environmental club, Spanish club, softball, and volunteer with my church youth group. The opportunity I've been given to earn college credits in high school will help save me money in my future college plans and help put me ahead when I graduate high school in 2020. While my career plans are not final, I've narrowed down my possible careers to either a physical therapist or a neurologist, both of which would allow me to help improve the quality of life among patients. Being ahead financially will help me greatly if I decide to go to medical school.

Sincerely,

Dear Brad,

I was honored to learn that I am the recipient of the ColLEDGE Up Program. Thank you so much for your generous financial support! I am more than thankful to have received this scholarship.

Currently, I am a high school student at Lancaster High School taking courses at Southwest Tech for the ColLEDGE Up Program. It is challenging trying to balance high school and college classes. I am grateful for this opportunity and your support!

At Lancaster High School I am involved in Student Council, Leo Club, and I work part-time at the Lancaster Care Center. I was so excited to hear about my acceptance into the ColLEDGE Up Program and I am even more excited that I get a head start on general courses for nursing while in high school. I will graduate high school in 2020 and it will help put me ahead once I start college. After high school my plan is to finish my general courses and transfer to a four year college to get my Bachelor's in Science in Nursing (BSN). Thank you again for your contribution!

Sincerely,

Kennedy Handel

Dear Brad,

I am very grateful to have received the Elmer G. Biddick Charitable Foundation Scholarship. I would like to thank you for the financial support!

I am currently on my first year, second semester of the ColLEDGE Up program. I am also a full-time high school student, balancing the work has not been the easiest task, although I get it done. After I complete this program, I would like to enroll to either Southwest Tech or UW Madison. You are helping make this possible and I greatly appreciate your support.

I have been in the Mineral Point School District my whole life. At the beginning of high school, I participated in band and chorus. As the years went by, I grew away from school activities and started becoming more interested in people and helping them. The college credits I earn in high school will help put me ahead after I graduate high school in the spring of 2020. After high school I would like to take my education further and become a juvenile court case worker.

Sincerely,

Lexis Ann Swanson
