Livingston WI 53554

Dear Jason,

Thank you and the Elmer Biddick Foundation Board Members for the 2020 grant to Southwest Tech's Charger Cupboard. We are so grateful for this grant to help keep the cupboard stocked for our students. Food insecurity is a challenge many of our students face, and this grant will help our students by providing food and meals to lessen that challenge so students can spend more time on their coursework.

We also appreciate our partnership with Biddick, Inc and your family. I hope your training with Dennis continues to go well; thank you for being flexible with the delays this spring. Best wishes for you, your family and your business.  
With gratitude, Holly Clendenen
