Subject: Spring Grant Thanks

EXTERNAL

Good afternoon!

I'm just writing to thank you for awarding the Mineral Point Elementary School a grant in this last spring cycle. We were able to purchase one aeroponic Towergarden for our library. It is set up and plants are sprouting. Elementary students are in charge of the daily PH checks and vegetable observations. All students have created a plant journal to document the growth. It will be so exciting when they can actually harvest the food and eat it.

Our work with the garden is currently being shared on the @pointernationlmc Instagram and Facebook page and the Mineral Point School District Facebook page.

Our thanks to the Elmer B. Biddick Charitable Foundation was recently featured in our district newsletter.

Please follow us on our journey. We are so grateful for this learning opportunity.

Kindest regards,

Micki Uppena & Livia Doyle
